

Cleaning & Other Lab Essentials

Newport offered a wide variety of optics cleaning tissues, canned duster for dust blowing from optics without physically touching it, optical tweezers for safe handling, protective bags and boxes for safe storage of optical components. In addition to that Newport also offers many more essentials for photonics laboratory including optical finger cots, gloves, swabs, hemostats etc.

Selecting an Optics Lab Accessory

Click [Optics Lab Accessories](#) to shop or browse all of our standard models, or select a product series below for more information on our products and capabilities.

	Optics Storage Accessories	Features
	Wooden Optics Storage Boxes	<ul style="list-style-type: none"> • Same high quality wooden boxes used in our kits • Optics held in protective slots
	Plastic Storage Boxes for Optical Mirrors	<ul style="list-style-type: none"> • Same plastic storage boxes used for mirrors • Sold only in packages of 5
	Protective Bags for Optical Lenses	<ul style="list-style-type: none"> • White hydroentangled polyester for soft protection • Sold only in packages of 10
	Optics Handling Accessories	Features
	Tweezers	<ul style="list-style-type: none"> • Precision Stainless Steel • Teflon • Stainless Steel with Carbon Fiber Tips
	Finger Cots and Gloves	<ul style="list-style-type: none"> • Powder-free latex to maintain high cleanliness levels • Finger cots or gloves
	Optics Cleaning Accessories	Features
	Optic Bulb Blower with Non-Return Valve	<ul style="list-style-type: none"> • Gently blow away small dust particles • Non-return valve
	Canned Duster, 10 oz. (300ml)	<ul style="list-style-type: none"> • Avoid cleaning optics with a solvent • Nonflammable • Contains no CFCs or HCFCs
	Solvent Dropper Bottle, 2 oz (60ml)	<ul style="list-style-type: none"> • Ideal for dripping a solvent onto lens tissue • Made of glass with a glass dropper and rubber bulb
	Solvent Pump Dispensers	<ul style="list-style-type: none"> • Conveniently store and dispense solvents • Precision valves protect contents until used • Made of high-density polyethylene (HDPE)
	Optic Cleaning Tissue, 4 x 6 in.	<ul style="list-style-type: none"> • Extremely soft, thin, and non-abrasive • Ideal for cleaning coated optics • 90% non-woven rayon and 10% cellulose
	Absorbond® Cleanroom Optic Wipes	<ul style="list-style-type: none"> • Designed for cleanroom use • Low solvent extractable levels • Fastsorb® 820 or Absorbond™
	Micro Absorbond™ Cleanroom Optic Swabs	<ul style="list-style-type: none"> • Designed and packaged for clean-room use • Hydroentangled, continuous-filament polyester head
	Cotton Optic Swabs	<ul style="list-style-type: none"> • 3 in. (7.6 cm) long wooden handles • 100% wrapped cotton heads • Not recommended for delicate optics
	Hemostat, Stainless Steel	<ul style="list-style-type: none"> • Firmly hold folded tissue when cleaning an optic • Straight-tip hemostat
	Resolution Test Targets	Features
	Resolution Test Targets	<ul style="list-style-type: none"> • USAF-1951 test targets • Chromium negative or emulsion positive • Transparent or opaque
